

## For Immediate Release

# E-Safe Technologies announces E-Safe Health

PITTSBURGH, Pa. --- November 1, 2019: E-Safe Technologies, a Pittsburgh based IT Services company, announces a new division 'E-Safe Health' to formalize its offerings to provide targeted solutions for Health Service companies. Research done for E-Safe showed the majority of IT companies provide the basic IT services like Managed Services, backup solutions and some security services, but very few had the knowledge and industry specific expertise to assist health services companies meet the regulation demands placed on them and the capabilities to provide them with strategic plans and solutions to meet the evolving needs of the health services industry.

Barbara Steinour, Business Development Manager for E-Safe Health, stated "After providing IT services to the Pittsburgh Tri State region for over 30 years, we realized there was a need to provide more specialized services to meet the unique needs of companies in the Health Services industry."

Dr. Suzanne Paone

To address this E-Safe brought in Dr. Suzanne Paone and Mary Jo Jefferson to head the Health Services side of the division. Their combined experience of over 50 years in the local healthcare market brings strong leadership and industry expertise to enhance the technical offerings that E-Safe Technologies provides. With their expertise E-Safe Health has developed new offerings for their Health Services customers.

When asked what new types of services E-Safe Health now provides, Barbara responded "Take for example our HIPAA Compliance Services. We now provide HIPAA risk assessments, risk assessment remediation, policy and procedures development, security training, vulnerability scans, penetration testing, and contingency planning & testing which are all required by Health Services companies to be HIPAA compliant." Alongside the HIPAA services E-Safe also offers CE Education, Revenue Enhancement, HIMS Services, Virtual Care Strategies, Application Development and EHR Consulting.

Mary Jo Jefferson

E-Safe Technologies provides Managed Services, Backup and Disaster Recovery, IT Consulting, Security Services, Cloud Services, Monitoring and Management, Telecommunications Solutions and Microsoft Solutions. E-Safe is committed to being the Premier Managed Services Provider and Consulting Agency for the health industry as evident by their commitment to provide HIPAA certified technicians highly skilled and experienced consultants versed in the latest procedures and techniques to keep clients and their customers' data safe and to mitigate potential breach possibilities. This dedication has positioned them as the MSP and Consulting Agency for the healthcare industry.
